LinkedIn: <https://www.linkedin.com/in/rehan62>

Islamabad/Rawalpindi, Pakistan

▼ Objective

Comprehensive understanding of computer hardware components, installation, and maintenance. Expert in software configuration and troubleshooting within Windows Operating Systems, with hands-on experience in diagnosing hardware/software issues. Proficient in networking concepts (TCP/IP, LAN, WAN), Proven expertise in configuring Dell PowerEdge servers, administering Windows Server environments (Active Directory, GPO, DNS, DHCP, DDNS, Port Forwarding), and managing advanced networking equipment (Alcatel). Committed to delivering high-quality technical support and maintaining stable IT infrastructure.

▼ Experience

IT Technician | Giga Mall 06-06-2025 – Onward

- **Server & Systems Administration:** Successfully configured and deployed Dell PowerEdge R730 servers, implementing hardware RAID (RAID 0 & RAID 1) via Dell PERC controllers for OS redundancy and optimized data storage. Administered Windows Server OS, managing Active Directory (AD) user accounts, Domain Controllers, DNS, and DHCP, DDNS, Port forwarding.
- **Security & Group Policy Implementation:** Designed and enforced strict Group Policy Objects (GPOs) across Organizational Units (OUs), implementing security measures such as USB drive blocking, Task Manager restrictions, and centralized wallpaper management.
- **IT Support & Troubleshooting:** Provide frontline support across departments for hardware and software troubleshooting Management of desktops, laptops, printers, and peripheral devices.
- **Network Infrastructure & Switching:** Managed LAN/WAN deployments, complex IP subnetting, and VLAN tagging. Configured and monitored enterprise network switches (Alcatel Lucent, Cisco) and ONT devices to ensure uninterrupted connectivity across the facility..
- **Surveillance & Biometric Systems:** Maintained large-scale CCTV infrastructure, including resolving IP camera synchronization issues and managing footfall camera networks via factory resets and NTP configurations. Installed and managed ZKTeco biometric attendance systems, handling database management and log accuracy
- **Web & Programming:** Development using Python, HTML, and CSS.

- **Wireless & P2P Connectivity:** Expertly configured and deployed Point-to-Point (P2P) wireless access points to bridge network gaps and extend coverage across expansive company premises.
- **Biometric Systems (ZKTeco):** Complete installation and configuration of ZKTeco attendance machines, managing user databases and ensuring accurate biometric logs.
- **Hardware & Telecommunications:** Executed virtual machine (VM) migrations, .vmx file recovery, and email system configurations (POP3 to IMAP). Professionally managed PABX telecommunication systems (extension routing) and facility-wide Public Address (PA) and music volume systems
- **Asset Management & Recovery:** Led IT asset recovery and inventory projects, successfully retrieving and documenting cameras, POS terminals, and networking gear from closed retail locations.

Technical Core Skills

- **Server & OS Management:** Windows Server OS, Active Directory, GPO, DNS, DHCP, DDNS, Port forwarding, Windows 10/11.
- **Networking:** TCP/IP, LAN/WAN, IP Subnetting, and Network Device Monitoring.
- **Hardware:** System maintenance, peripheral installation (printers/scanners), and hardware diagnostics.
- **Security & Surveillance:** CCTV Network Management, ZKTeco Biometrics, Access Control.
- **Automation:** AI Agent development using N8N and Python-based automation.
- **Telecom & Peripherals:** PABX Systems, Point-to-Point (P2P) APs, Network Printers, Scanners.

▼ Education

- **BS (Computer Science)** | Virtual University of Pakistan
- Currently pursuing second semester.
- **BS (Artificial Intelligence)** | Nutech University, Islamabad
- Completed first semester (Withdrawal due to financial instability).
- **Intermediate (HSSC) ICS** | Punjab College Gujar Khan
- *Jan 2019 – Jan 2021* | Score: 878/1100.
- **Matriculation (SSC)** | The City School Mandra
- Score: 1079/1100.

▼ Communication Skills

- **Technical Reporting:** Ability to translate complex technical issues into easy-to-understand reports for non-technical management and staff.

- **Client & Departmental Coordination:** Skilled in coordinating with different departments to understand their IT requirements and providing tailored technical solutions.
- **Documentation:** Maintaining detailed logs of network changes, hardware repairs, and system updates for future reference and team alignment.
- **Active Listening:** Proven ability to listen to user concerns, diagnose problems accurately, and provide clear, step-by-step instructions for troubleshooting.

▼ Leadership and management skills

- **Technical Supervision:** Experience in supervising the installation of network hardware and surveillance systems, ensuring all work meets company standards.
- **Resource Management:** Managing IT inventory, including laptops, desktops, and peripherals, to ensure all departments are properly equipped.
- **Decision Making:** Ability to make quick, effective decisions during network outages or system failures to minimize downtime.
- **Training & Mentorship:** Capable of training new staff members on office software, biometric attendance procedures, and basic IT security protocols.

▼ Courses and Certification

- **CCNA (200-301) Network Fundamentals:**
- Understanding of Cisco networking fundamentals and the OSI model.
- Implementation of IP Addressing and Subnetting.
- Knowledge of LAN Setup including cabling and patch panel management.
- Performing network device monitoring and maintenance.
